

Servo Gun for Aluminum

Servo Gun for Aluminum

A servo-gun mounted robot (smaller in size than ever before), using ART-HIKARI-make MF transformer and special welding power supply enables welding for aluminum.

Nachi's robot (ST100) can do.

Possible to control welding force and electric current while welding is in operation.

【SPECIFICATION】

Product Name	Servo Gun for Aluminum
Rated Capacity	180KVA
Primary Voltage	400V
Rated Frequency	50/60HZ
Duty Cycle	10%
Max. Short-circuit Current	30000A
Electrode Drive Method	Welding-force control Type Servo Motor
Max. Welding Force	4KN
Transformer	AH-MF Transformer
Timer	AH-FFHC640-SV
